

You Don't Have to Navigate This Alone

JOIN THE AUTISM INSURANCE COALITION

Who We Are

The Ohio Autism Insurance Coalition brings together ABA providers across the state to improve access, reimbursement, and sustainability of insurance-funded autism services.

- We have over 50 ABA providers in the Coalition

Why This Exists

As demand for ASD services continues to rise, providers are navigating:

- Complex insurance requirements and denials
- Evolving state regulations
- Offer trainings on audit readiness, compliance plans, and medical documentation.
- Challenges with reimbursement, service access, and recoupments.

This work is too complex to do alone.

What We Do

- Advocate for policy and funding improvements
- Work directly with state agencies and associations (ODM, OIG, DOI, Insurer Associations)
- Collect and share data to influence change

What You Gain

- Access to statewide relationships and insights
- Ongoing education and training
- Support navigating Medicaid and insurance systems
- Connection to a network of like-minded providers
- Coalition's available resources should help lower some administrative cost
